Excellent Entertainment at the Webster School Last Evening.

The large crowd which gathered at the Webster school last evening was delightfully entertained, and were thoroughly satisfied with the time spent at the school. Preparations for the entertainment have been energetically pushed for some time, and the artful decorations indicated that considerable time and pains had been employed. The corridors were decorated beautifully in red and pale green crepe paper which was hung in festoons from the ceiling to the wall, presenting an artistic effect. On the landing were many tastily arranged corners and numerous tables, plants and flowers. Booths in which lemonade, ice cream

Within the next sixty days over 1,000 cars of Texas cattle will pass through

Denver on the way to northern Colo-

rado and Wyoming, says the Denver Post of Monday, The spring stock moving has begun from the south to the northern ranges, the first train passing through Denver last evening, over the Union Pacific, and consisting of eighteen cars, destined to Orin Junction,

Texas stockmen send their cattle north to fatten on the juicy grass of the green ranges, when the south is swel-tering in heat. After feeding during the summer they are shipped to Chicago in the fall, fat and commanding the best prices. The present high price of cattle has stimulated the range owners in the north to buy more extensively this spring on the southern ranges than in former years. The big movement north is an indication of the view entertained

as to the stability of the market. There are at the Denver Union stock yards twenty-four car loads of cattle from Texas destined to Sutherland, Neb. They are being fed and branded in the coal yards. There are also nine cars of horses from Idaho, billed to Kanaas City. They were feeding in Colorado and left this afternoon over the Kansas Pacific.
